# CAUTION

#### RISK OF ELECTRIC SHOCK DO NOT OPEN

High voltages are used in the operation of this product.to reduce the risk of electric shock,do not remove cover of the cabinet, refer servicing to qualified service personal

If the TV any changes or coarse adjustment, electric shocks to be hurt, do not attempt to open a machine-maintenance, customer contact centres needed overhaul.

	The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating in the literature accompanying the appliance.
Â	Warning The lightning flash with arrowhead symbol within an equilateral triangle, is inten ded to alert the user to the presence of uninsulated dangerous voltage within the products enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

1) Read these instructions.

2) Keep these instructions.

3) Heed all warnings.

4) Follow all instructions.

5) Do not use this apparatus near water.

6) Clean only with dry cloth.

7) Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.

8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.

9) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety, If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.

10) Protect the power cord from being walked on or pinched particularly at Plugs, convenience receptacles, and the point where they exit from the apparatus.

11) Only use attachments /accessories specified by the manufacturer.

12) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used caution when moving the cart/apparatus combination to avoid injury tip-over.

13) Unplug this apparatus during lightning storms or when unused for long periods of time.

Caution:

14) To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.

15) The mains plug is used as disconnect device, the disconnect device shall remain readily operable.

16) The socket-out shall be installed near the equipment and shall be easily accessible.

17) This product should never be placed in a built-in installation such as a bookcase or rack unless

proper ventilation is provided or the manufacture's instructions have been adhered to.

18) The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquid, such as vases, shall be placed on the apparatus.

19) Do not place any sources of danger on the apparatus (e.g. liquid filled objects, lighted candles).

20) Wall or Ceiling Mounting - The appliance should be mounted to a wall or ceiling only as recommended by the manufacturer.

Never place the TV, remote control or batteries near naked flames or other heat sources, including direct sunlight. To prevent the spread of fire, keep candles or other flames away from the TV, remote control and batteries at all times.

22) The USB terminal should be loaded with 0.5 A under normal operation.

These servicing instructions are for use by qualified service personnel only. To reduce the risk of electric shock do not perform any servicing other than that contained in the operating instructions.

unless you are qualified to do so.

23) The battery shall not be exposed to excessive heat such as sunshine, fire or the like.

24) This equipment is a Class II or double insulated electrical appliance. It has been designed in such a way that it does not require a safety connection to electrical earth

25) The maximum using environment temperature is 45 degrees.

The Maximum using altitude is 2000 meters

# Help

No power	<ul> <li>Check if the AC cord of TV is plugged in or not. If there's still no power, please disconnect the plug, and reconnect to the socket after 60 seconds. Turn the power back on.</li> </ul>
Signal not received properly	<ul> <li>Double or phantom images may appear on your TV if there are high buildings or mountains close to where you are. You can adjust the image thru manual operation: consult instruction of vernier regulation, or adjust the direction of the external antenna.</li> </ul>
	<ul> <li>If you use an indoor antenna, under certain circumstances signal reception may be more difficult. Adjust the direction of the antenna for optimum reception. If this does not improve reception, you may have to switch to an external antenna.</li> </ul>
No picture	<ul> <li>Check if the antenna at the back of the TV is connected properly.</li> <li>View other channels to see if the problem still occurs.</li> </ul>
Video appears with no audio	<ul> <li>Try increasing the volume.</li> <li>Check if the TV's sound is on mute or not.</li> </ul>
Audio is present, but video does not appear or is discolored	<ul> <li>Try adjusting the contrast and brightness.</li> </ul>
Static noise affects video and audio quality	<ul> <li>Check if the antenna at the back of the TV is connected properly.</li> </ul>
Broken lines on screen	<ul> <li>Electrical appliances such as hair dryers or vacuums etc. may be interfering with your TV set. Switch these appliances off.</li> </ul>
Remote doesn't work	<ul> <li>Make sure the plastic bag which came with the remote control is removed. Try using the remote in a shorter distance from the TV. Check if the placement of the batteries is correct, or try using new batteries with the remote control.</li> <li>The TV will go into Standby mode if it receives no response in a few minutes.</li> </ul>
No video (PC mode)	<ul> <li>Please check if the cable is connected to the VGA port correctly, or if the cable is bent in some places</li> </ul>
Vertical line blinking (PC Mode)	<ul> <li>Enter the main menu, and adjust the vertical placement to eliminate the vertical line.</li> </ul>
Horizontal tearing (PC Mode)	<ul> <li>Adjust the horizontal placement of the screen to clear any horizontal lines.</li> </ul>
Screen is too bright or dark (PC Mode)	<ul> <li>Adjust the brightness or contrast in the main menu.</li> </ul>
No response from the PC	• Check if the PC's display resolution is set to a compatible resolution for the TV.
Lines appearing when a device is connected to the RCA port	<ul> <li>Make sure you are using a cable of good quality.</li> </ul>
Problems are unresolved	<ul> <li>Unplug the power cable and wait for 30 seconds, then reconnect to the socket. If problems still persist, do not attempt to repair the TV by yourself. Kindly contact the service center.</li> </ul>

Do not leave your TV displaying a static image, whether it is from a paused video, menu screen, etc. for an extended period of time, doing so will damage the display and may cause image burn-in.
